## Mobile Point of Sale

- Mobile point of sale (mPOS) is a portable version of a traditional checkout counter point of sale system or cash register.
- mPOS systems run on a mobile device – smartphone or tablet. (Android and iOS)
- mPOS allows retail businesses to process sales, accept payments, check inventory, view product information, and more from almost anywhere.

# PaladinGo™

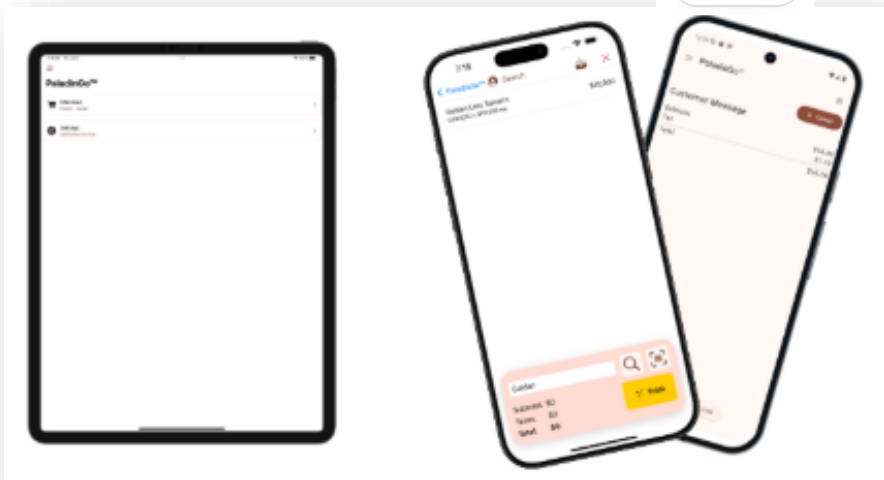

PaladinGo™ is the mobile companion to Paladin Point of Sale, and it puts the power of PaladinPOS in your hand.

- Access store information in aisle, in yard and beyond.
- Create and save purchase orders.
- Look up inventory details.
- Conduct sales anytime, anywhere.
- Make informed purchased decisions while at supplier shows.

## PaladinGo™ activation

- Download from either the Google Play or the Apple Store
- To enable it, work through the PaladinGo tabs in your active Paladin Point of Sale system.
- PaladinGo also works through Datalogic's Memor Scanner, a handheld mobile computer designed for inventory review in demanding environments like retail.
- Contact Paladin Support with any questions.

## PaladinGo™ Inventory Module

- The **Inventory** module allows you to lookup and see the status of any item in your inventory.
- Using either the **UPC** icon to scan an item, the **Magnifying Glass** to search for an item, or by entering the part number, the following information on the item appears.
  - Stock On Hand
  - Sales
  - Financial
  - Cost & Prices
  - Forecast
  - Stock Check
