  - Overview
  - How it works
  - How it helps
- Sell anywhere
- PaladinGo Checkout demonstration

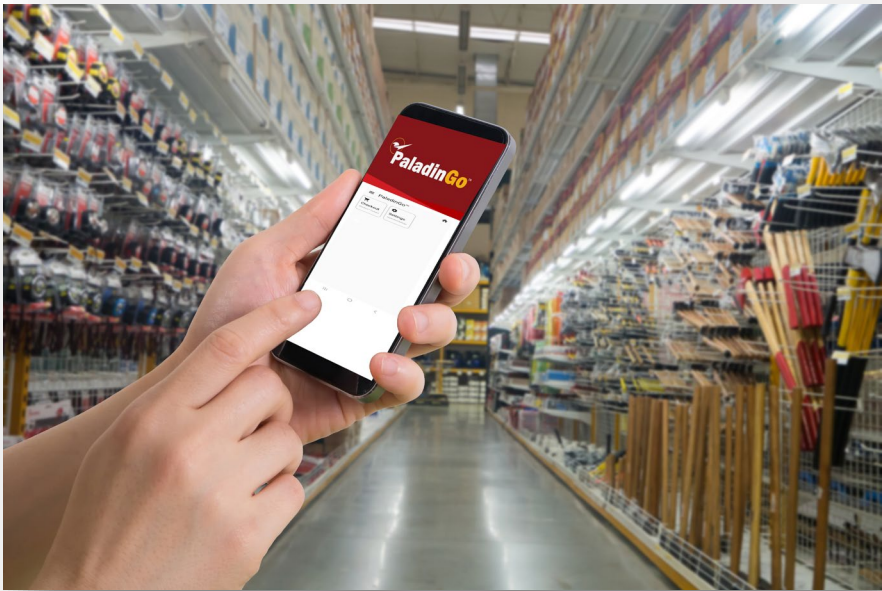

## Mobile Point of Sale

- Mobile point of sale (mPOS) is a portable version of a traditional checkout counter point of sale system or cash register.
- mPOS systems run on a mobile device – smartphone or tablet. (Android and iOS)
- mPOS allows retail businesses to process sales, accept payments, check inventory, view product information, and more from almost anywhere.

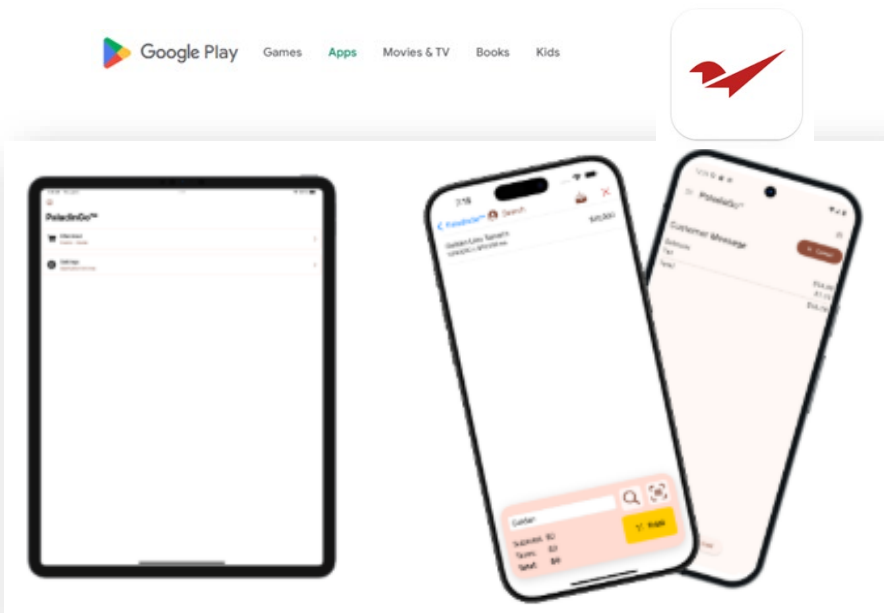

# PaladinGo™

PaladinGo™ is the mobile companion to Paladin Point of Sale, and it puts the power of PaladinPOS in your hand.

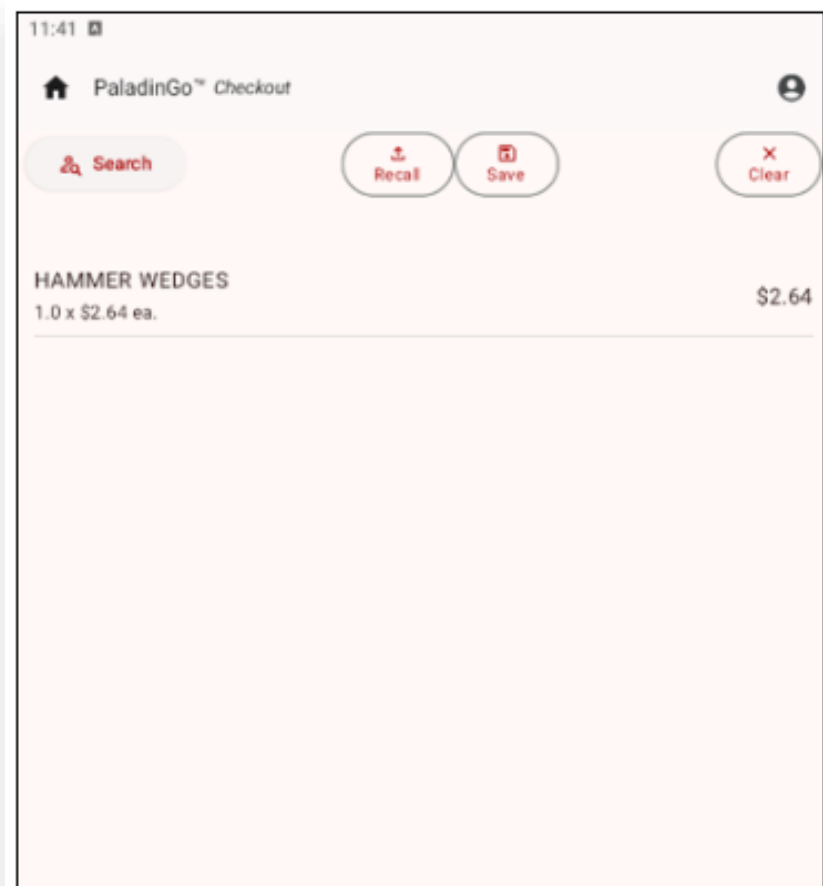

- Access store information in aisle, in yard and beyond.
- Create and save purchase orders.
- Look up inventory details.
- Make informed purchasing decisions while at supplier shows.
- Conduct sales anytime, anywhere.

## PaladinGo™ activation

- Download from either the Google Play or the Apple Store.
- Can be enabled directly inside of your current PaladinPOS system via the Maintain > PaladinGo menu located at the top of the window.
- Contact Paladin Support with any questions.
- PaladinGo also works through Datalogic's Memor Scanner, a handheld mobile computer designed for inventory review.

## PaladinGo Checkout

- The **Checkout** module allows you to sell from anywhere with an internet connection.
- PaladinGo Checkout lets you:
  - Add a customer
  - Scan and add items
  - Search for and add items
  - Add items by part number
  - Change pricing on items at the mobile POS
  - Modify an item quantity
  - Recall quotes, special orders and on-hold invoices
  - Calculate sales tax
  - Accept cash, credit card and charge payments
  - Save an invoice to your PaladinPOS database
