Mobile Point of Sale

- Mobile point of sale (mPOS) is a portable version of a traditional checkout counter point of sale system or cash register.
- mPOS systems run on a mobile device – smartphone or tablet. (Android and iOS)
- mPOS allows retail stores to perform a wide range of business processes from anywhere with an internet connection.

PaladinGo™

PaladinGo™ – the mobile companion to Paladin Point of Sale – puts the power of PaladinPOS in your hand.

- Access store information anywhere.
- Check on store and product performance.
- Look up inventory details.
- Create and save purchase orders.
- Recall quotes, special orders and on-hand invoices.
- Complete sales transactions.
- Make informed purchasing decisions.
