

# PaladinGo™ Count Module: Memor Makes Scanning Inventory Easy

Ian McCracken

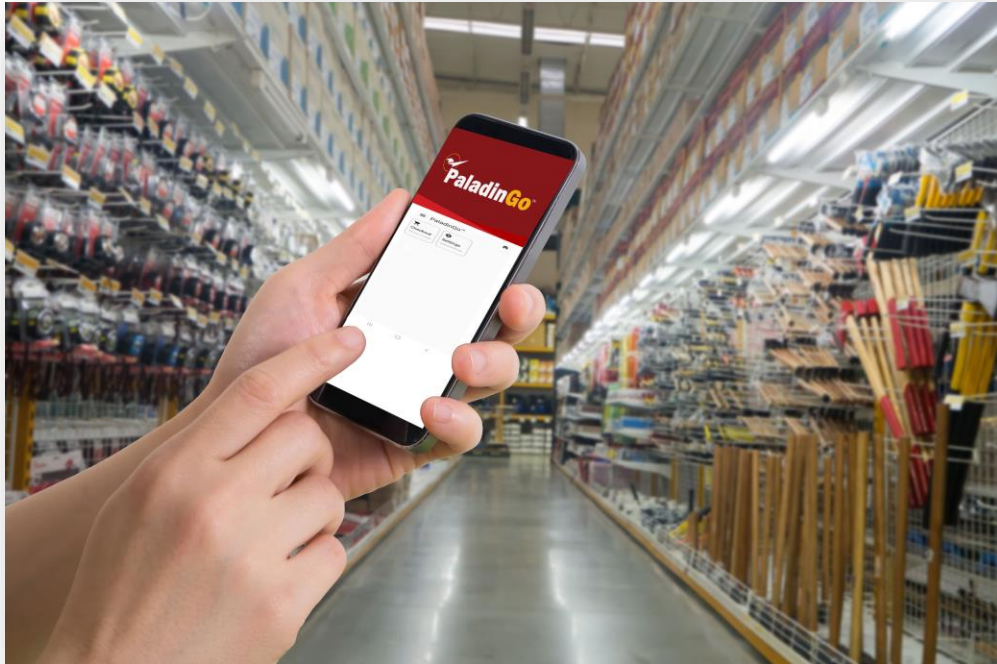

*Customer Experience Specialist*

April 7, 2026

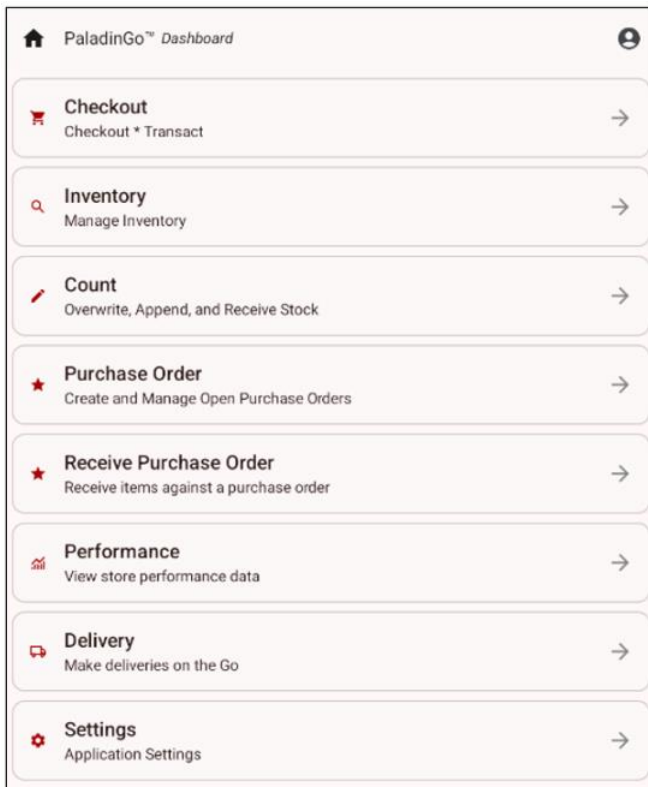

# **WHAT YOU'LL LEARN**

- PaladinGo™
  - Mobile POS overview
  - PaladinGo overview
- PaladinGo activation
- Count Module
- Datalogic Memor device
- PaladinGo Count Module/Memor demonstration

## Mobile Point of Sale

- Mobile point of sale (mPOS) is a portable version of a traditional checkout counter point of sale system or cash register.
- mPOS systems run on a mobile device – smartphone or tablet. (Android and iOS)
- mPOS allows retail stores to perform a wide range of business processes from anywhere with an internet connection.

 **PaladinGo™**

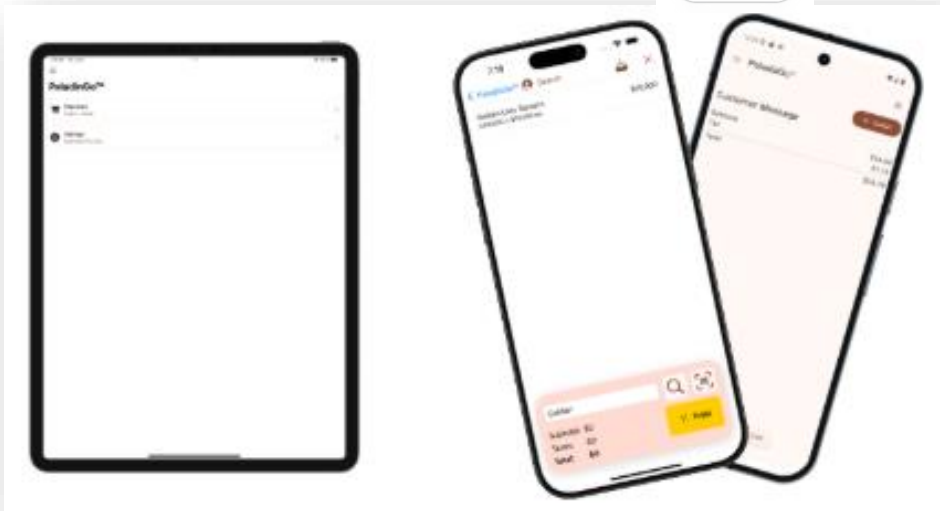

PaladinGo™ – the mobile companion to Paladin Point of Sale – puts the power of PaladinPOS™ in your hand.

- Access store information anywhere.
- Check on store and product performance.
- Look up inventory details.
- Create and save purchase orders.
- Recall quotes, special orders and on-hold invoices.
- Complete sales transactions.
- Make informed purchasing decisions.

Google Play Games Apps Movies & TV Books Kids

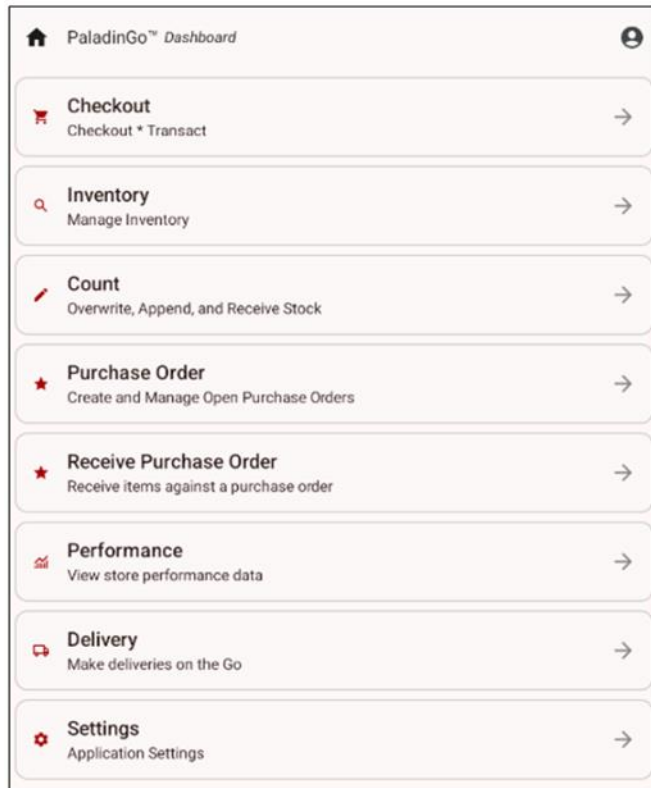

## PaladinGo™ activation

- Download from either the Google Play or the Apple Store.
- Can be enabled directly inside of your current PaladinPOS system via the Maintain > PaladinGo menu located at the top of the window.
- Contact Paladin Support with any questions.

# PaladinGo™

- PaladinGo Count Module performs the following functions.

- View status of item
  - General
  - Pricing
  - Order Control
  - Remote Stock
- Overwrite
- Append
- Receive
- Set Location
- Print/Print Later

- The Count Module also provides the same RF Unit 15-line functionality of inventory alerts (dynamic prompts).

- These alerts are:

- Item Overstock
- Shrinkage
- Low on Stock
- Suggest Clearance

## Memor Mobile 2D

- PaladinGo also works through Datalogic's Memor Scanner, a handheld mobile computer designed for inventory review.
  - **Key Features**
  - Scans barcodes at high speeds in variable lighting conditions
  - Virtual RAM runs multiple applications faster
  - Superior connectivity and processing power
  - High reliability and water protection
  - Real time feedback of scanning accuracy
  - Enterprise battery saver, saves up to 20% of battery life
- Count Module and Memor demonstration
