* Auto-update prices on quotes

- On a recalled quote, when an item's saved price is different from its current retail price, its current retail price appears in blue text.
- **Update to Current Price:** Update the selected line item to the current retail price.
- **Update All to Current Prices:** Update all the line items on the invoice to current retail prices.

The screenshot shows a software window titled "Invoice / Quote" with a "Checkout" button. Below the header, there are fields for Rewards, Customer, Address 1, Address 2, City/State/Zip, Phone, and Fax. A table of line items is displayed with columns: Tax, Def, Net, Part Number, Description, Quantity, Price, and Extension. The table contains three line items:

Mobile2Deliver – using mobile device in the field

The screenshot displays the Mobile2Deliver application interface. At the top, there's a 'Recall Transaction' window with a red header. It includes radio buttons for transaction types: Suspended Sale, Quote — Order, Kit, Special Order, On Hold, and Delivery (selected). Below these are filters for 'Show for all customers', 'Status' (set to All), 'Start Date' (04-Oct-18), and 'End Date' (12-Oct-19). A table lists delivery transactions with columns: Inv #, Order Date, Scheduled Date, Delivered Date, Truck, Name, and Status. The first row is highlighted in red.
