

Paladin's Latest and Greatest Features Help You Do More

Charles Owen

Client Experience Officer

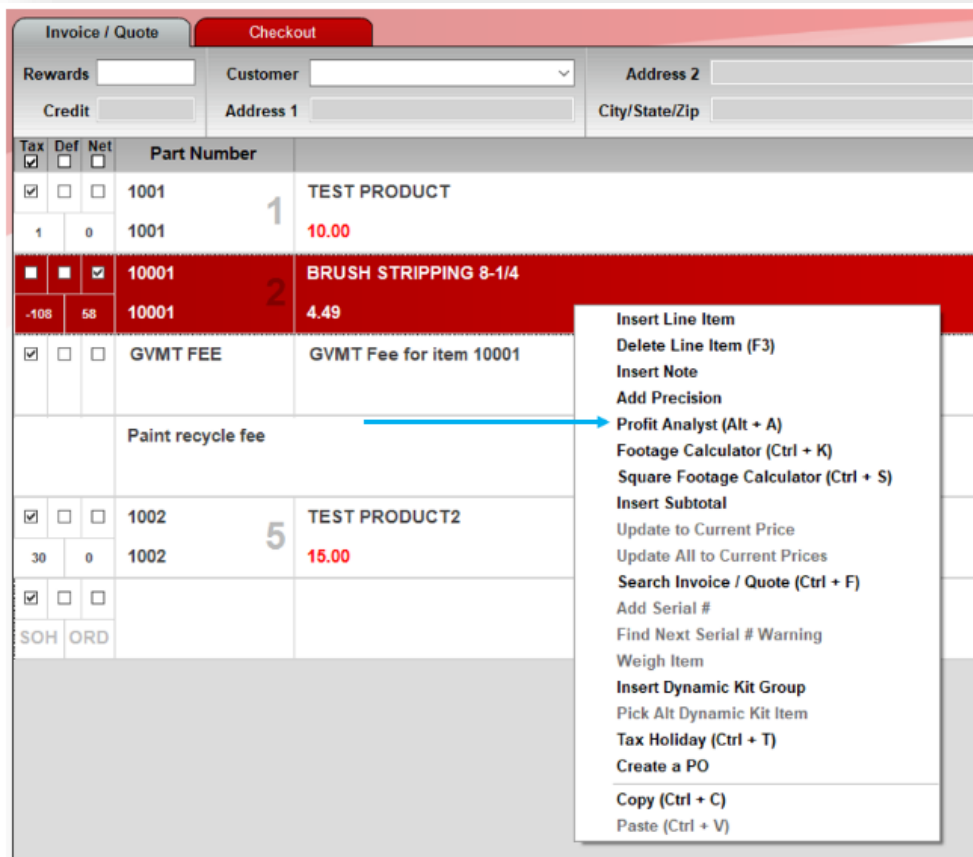

January 9, 2024

WHAT YOU'LL LEARN

- Paladin Features
 - Profit analyst update
 - Electronic shelf labels
 - Multiple rewards programs
 - Cash discounting program
 - Missing serial numbers report
 - Remote stock check additions
 - Project payment management enhancement
 - Buy down quote pick list report
 - Newer “Invoice(store)” options and settings
 - A few things to look for in the immediate future

Profit analyst update

- Profit Analyst lets you view average cost and market cost profits and margins for any line item in an invoice or quote along with the invoice or quote total.
- As changes are made on the invoice, Profit Analyst displays the resulting margin and profit values. All values are pre-tax (subtotal) values.

The screenshot shows an 'Invoice / Quote' window with a 'Checkout' tab. A table of line items is visible, with a context menu open over the second item, 'BRUSH STRIPPING 8-1/4'. The menu options include 'Insert Line Item', 'Delete Line Item (F3)', 'Insert Note', 'Add Precision', 'Profit Analyst (Alt + A)', 'Footage Calculator (Ctrl + K)', 'Square Footage Calculator (Ctrl + S)', 'Insert Subtotal', 'Update to Current Price', 'Update All to Current Prices', 'Search Invoice / Quote (Ctrl + F)', 'Add Serial #', 'Find Next Serial # Warning', 'Weigh Item', 'Insert Dynamic Kit Group', 'Pick Alt Dynamic Kit Item', 'Tax Holiday (Ctrl + T)', 'Create a PO', 'Copy (Ctrl + C)', and 'Paste (Ctrl + V)'. A blue arrow points from the 'Profit Analyst' option in the menu to the 'Paint recycle fee' line item in the table.

Tax	Def	Net	Part Number	Quantity	Description	Price
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	1001	1	TEST PRODUCT	10.00
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	10001	2	BRUSH STRIPPING 8-1/4	4.49
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GVMT FEE		GVMT Fee for item 10001	
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	1002	5	TEST PRODUCT2	15.00

The 'Profit Analyst' dialog box is shown with the 'Average Cost' radio button selected. It displays a table with columns for 'Item', 'Cost', 'Profit', and 'Margin'.

Item	Cost	Profit	Margin
Current Line	\$1.870	\$2.62	58.4%
Invoice	\$11.870	\$19.62	62.3%

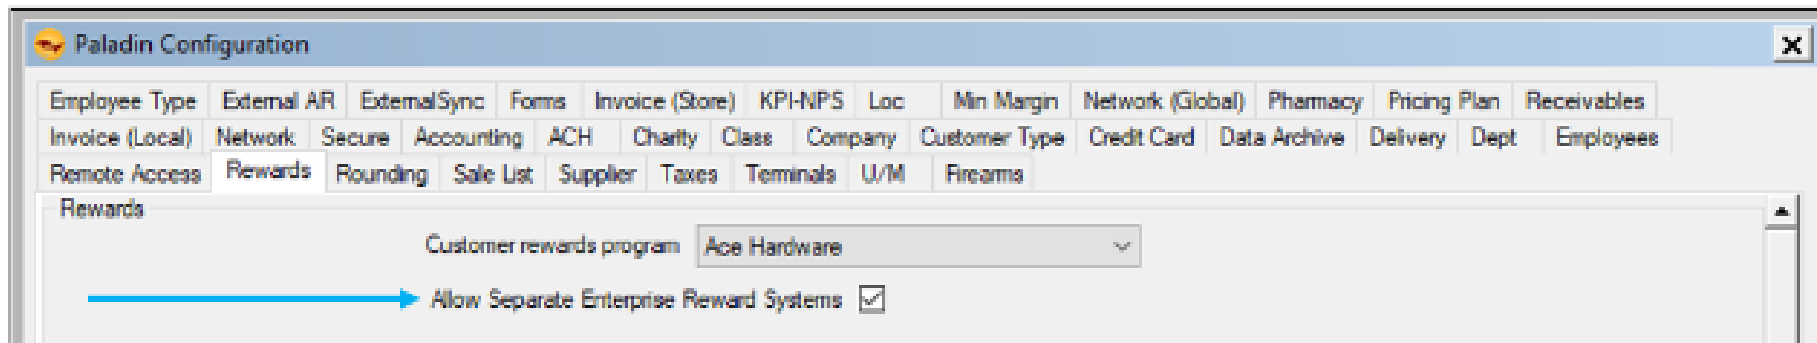

Electronic shelf labels

- SES-imagotag is a specialist in electronic shelf labeling (ESL) systems.
- Integrating Paladin with SES-imagotag's electronic shelf label system, product pricing is automatically updated whenever a price is changed in Paladin.
- Paladin's price is:
 - One-Time Fee: \$249
 - Monthly Fee: \$29

Multiple rewards programs

- Multi-store businesses can have more than one customer rewards program.
- Paladin now allows these stores to offer more than one rewards program.
- Contact Paladin support if you are interested in enabling this feature.

Cash discounting program

- Simply stated, a cash discount payment program offers the consumer a lower price on all items when they pay cash.
- Customers paying with a credit card (Debit Cards not included) will be charged a fee to help offset the merchant's payment processing fees.
- Merchants are responsible for verifying the legality of this program in their geographical location or municipality.

Cash discounting program (cont'd)

How Internal Cash Discount works

- When setting up Internal Cash Discount, a service fee will be added to every invoice. Paladin limits the configurable percentage rate to a maximum up to 3%. If payment is cash or a cash equivalent (charge, check, debit card, coupons, or gift card), the percentage you set will be discounted off the invoice as a cash discount.
- **Important:** You are solely responsible for properly investigating applicability of cash discounting programs in your state, getting an agreement that the service fee charged is within the limits established by the credit card brands you process, as well as any signage required in your store by the card brands. Lastly, it is the cashier's responsibility to accurately determine and select the card types on the transactions (debit or credit) in your store(s).

Cash discounting program (cont'd)

- Manager Acknowledgement is required.

Cash Discount / Service Fee Manager Acknowledgment Cancel X

 **Manager Acknowledgment Required**

- I acknowledge that I am solely responsible for properly investigating applicability of cash discounting programs in my state and accurately selecting card types on the transactions in my store.
- I understand that service fees collected are potentially reportable to my state taxing authority as taxable sales even though we did not collect sales tax on these fees.
- I understand the credit card processing fee I will pay is based on the amount of sale plus any service fees applied.
- I verify the service fee charged is within the limits established by the credit card brands I process.

Manager Acknowledgment:

OK

Missing serial numbers report

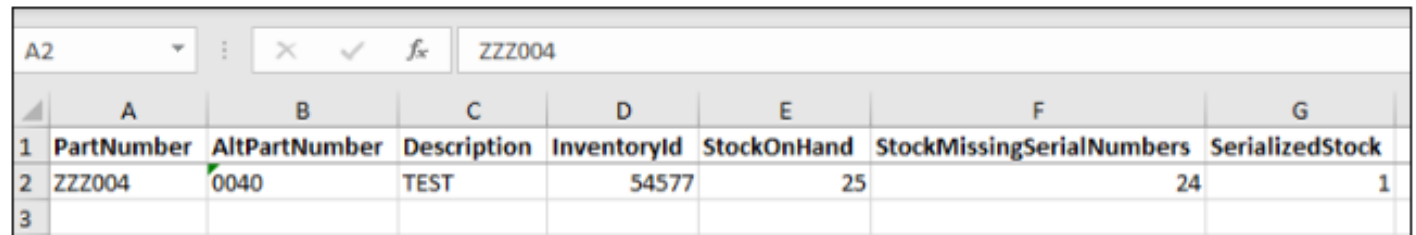

- Serial numbers are typically used for high-value products, such as power equipment, chainsaws, power tools, firearms, and appliances.
- When serialized products are added to the inventory without serial numbers, a caution symbol is presented left of the SOH number.
- The **Missing Serial Number** Excel report will provide a list of all serialized products that do not contain a serial number.

Missing serial numbers report (cont'd)

To access this report/spreadsheet:

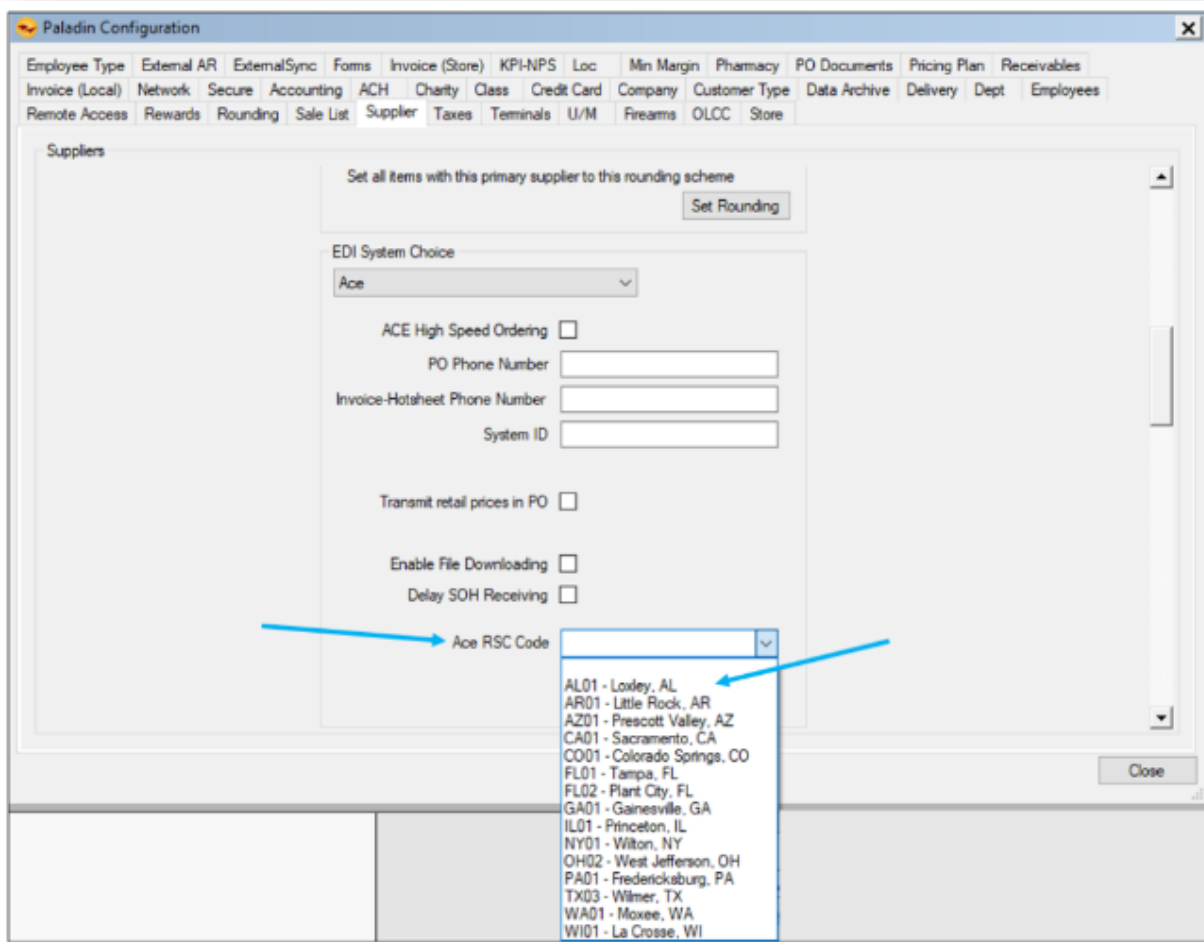

1. In Paladin, from the top ribbon, select the **Reports** module.
2. In the **Report Area** pane, select **Inventory > General**.
3. In the **Report List** pane, select **Missing Serial Numbers**.
4. In the **Choose Report** pane, click **F12 Next**.
5. In the **Missing Serial Numbers** window, in the **Sorting Options** pane, click **F12 Run Report**.

- This report shows part number, alt part number, description, and amount of SOH that is and is not serialized.

	A	B	C	D	E	F	G
1	PartNumber	AltPartNumber	Description	InventoryId	StockOnHand	StockMissingSerialNumbers	SerializedStock
2	ZZZ004	0040	TEST	54577	25	24	1

Close

- Paladin's **Remote Stock Check (RSC)** or (**Transfer** for m/s) feature provides:
 - Remote stock on hand (SOH) availability directly from the supplier's warehouse.
 - Shows what's available and what's out of stock when generating purchase orders.
 - Ability to adjust order quantities before submitting the purchase order.
 - More efficient ordering process / no more supplier portal inventory SOH look ups.
- It's currently available for the following suppliers: **Ace Hardware, Buttery, Do it Best, Emery-Jensen (EJD), Orgill, True Value and Wallace Hardware.**

Remote stock check (RSC) (cont'd)

The screenshot displays the 'Paladin Point of Sale' application. The main window shows a 'Purchase Order' for 'ACE HARDWARE, 14 Days' with a total of \$484.00. The order list includes:

Part Number	Description	Need	OrdQty	Min	Max	Ord%
1	SUPPLIER OUT OF STOCK					
2	GAS BBQ	0	1.00	Min	3.00	100%
3	PARTIAL STOCK AVAILABLE					
5	RED ADIRONDACK CHAIR	20	00	M	2400	100%

An 'Remote Stock Check' dialog box is open for item 160423, showing:

Store	Description	SOH	OnOrd	Forecast	Needs	Surplus
Ace - CD01	RED ADIRONDACK CHAIR	9	0	0	0	0

Annotations in the image include:

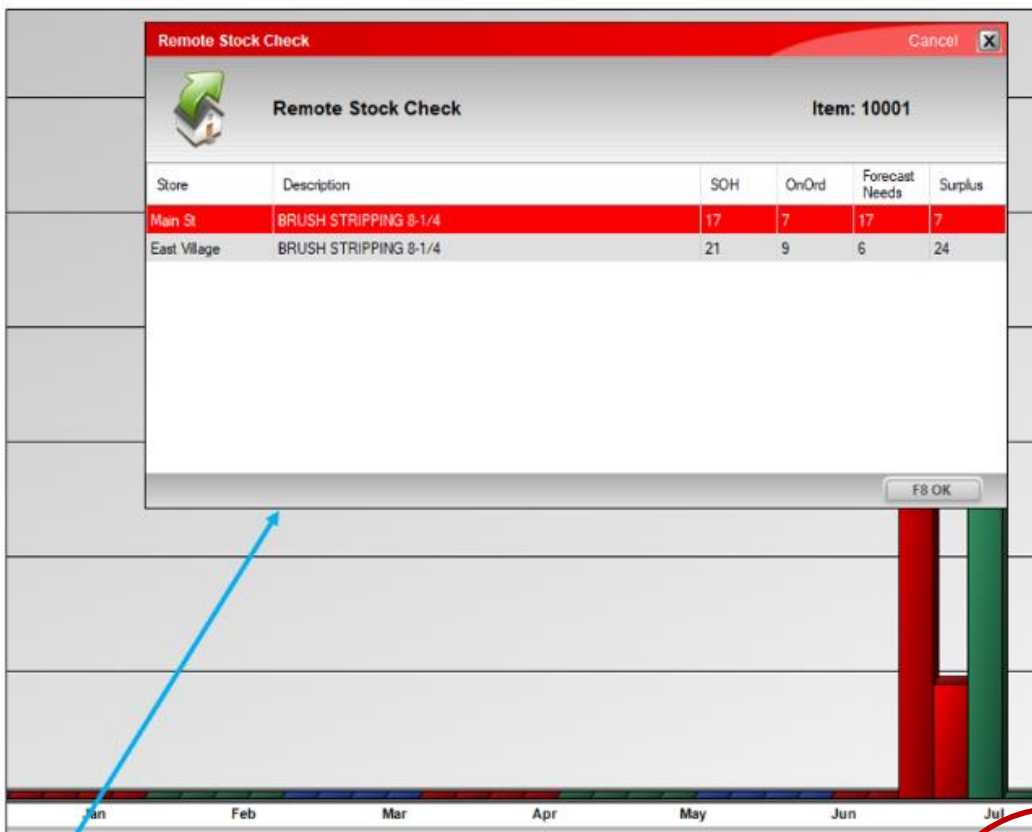

- 'Sort your purchase order by warehouse availability' pointing to the item list.
- 'Get real-time warehouse stock on hand' pointing to the RSC dialog.

- RSC uses the existing **Stock Check** or **Transfer** (multi-store) feature on the bottom ribbon in Paladin's **Invoice/Quote, Inventory, and PO** modules.

- *RSC lets you sort purchases by warehouse availability and delivers near real-time warehouse stock on hand results.

*SOH refresh time periods vary based on supplier restrictions and warehouse ERP limitations.

Remote stock check (RSC) (cont'd)

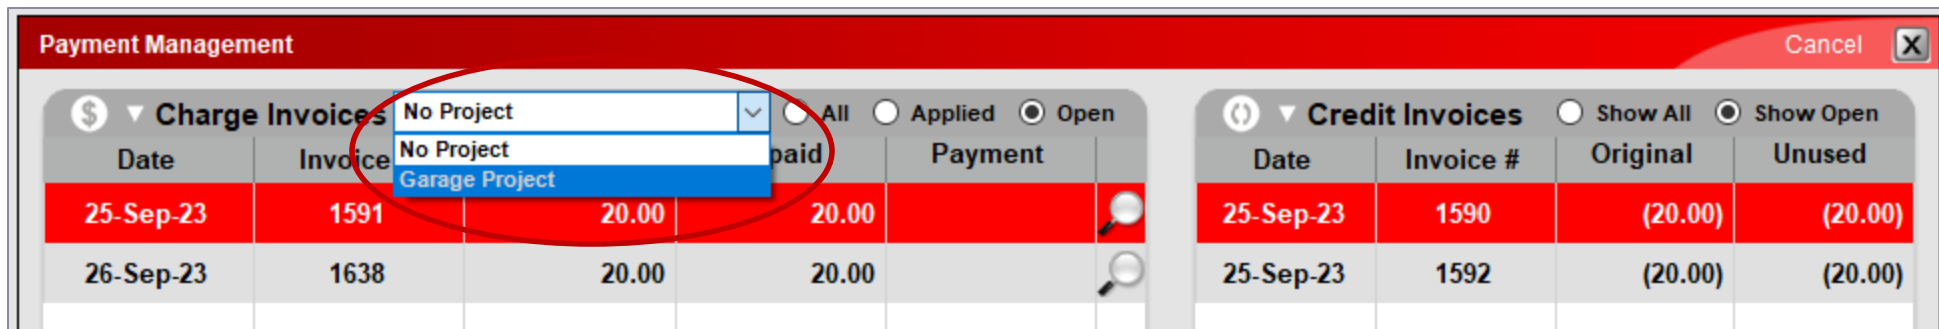

Store	Description	SOH	OnOrd	Forecast Needs	Surplus
Main St	BRUSH STRIPPING 8-1/4	17	7	17	7
East Village	BRUSH STRIPPING 8-1/4	21	9	6	24

- To use this feature, select the module you want to work in - **Invoice/Quote, Inventory, or PO.**
- Enter a part number in the **Part Number** or **Part #** box and highlight the item you wish to inquire about.
- On the bottom ribbon of the module, select **(F7) Stock Check** or **(F7) Transfer** for multi-stores.
- The **Remote Stock Check** window opens, and the results are displayed.

Project payment management

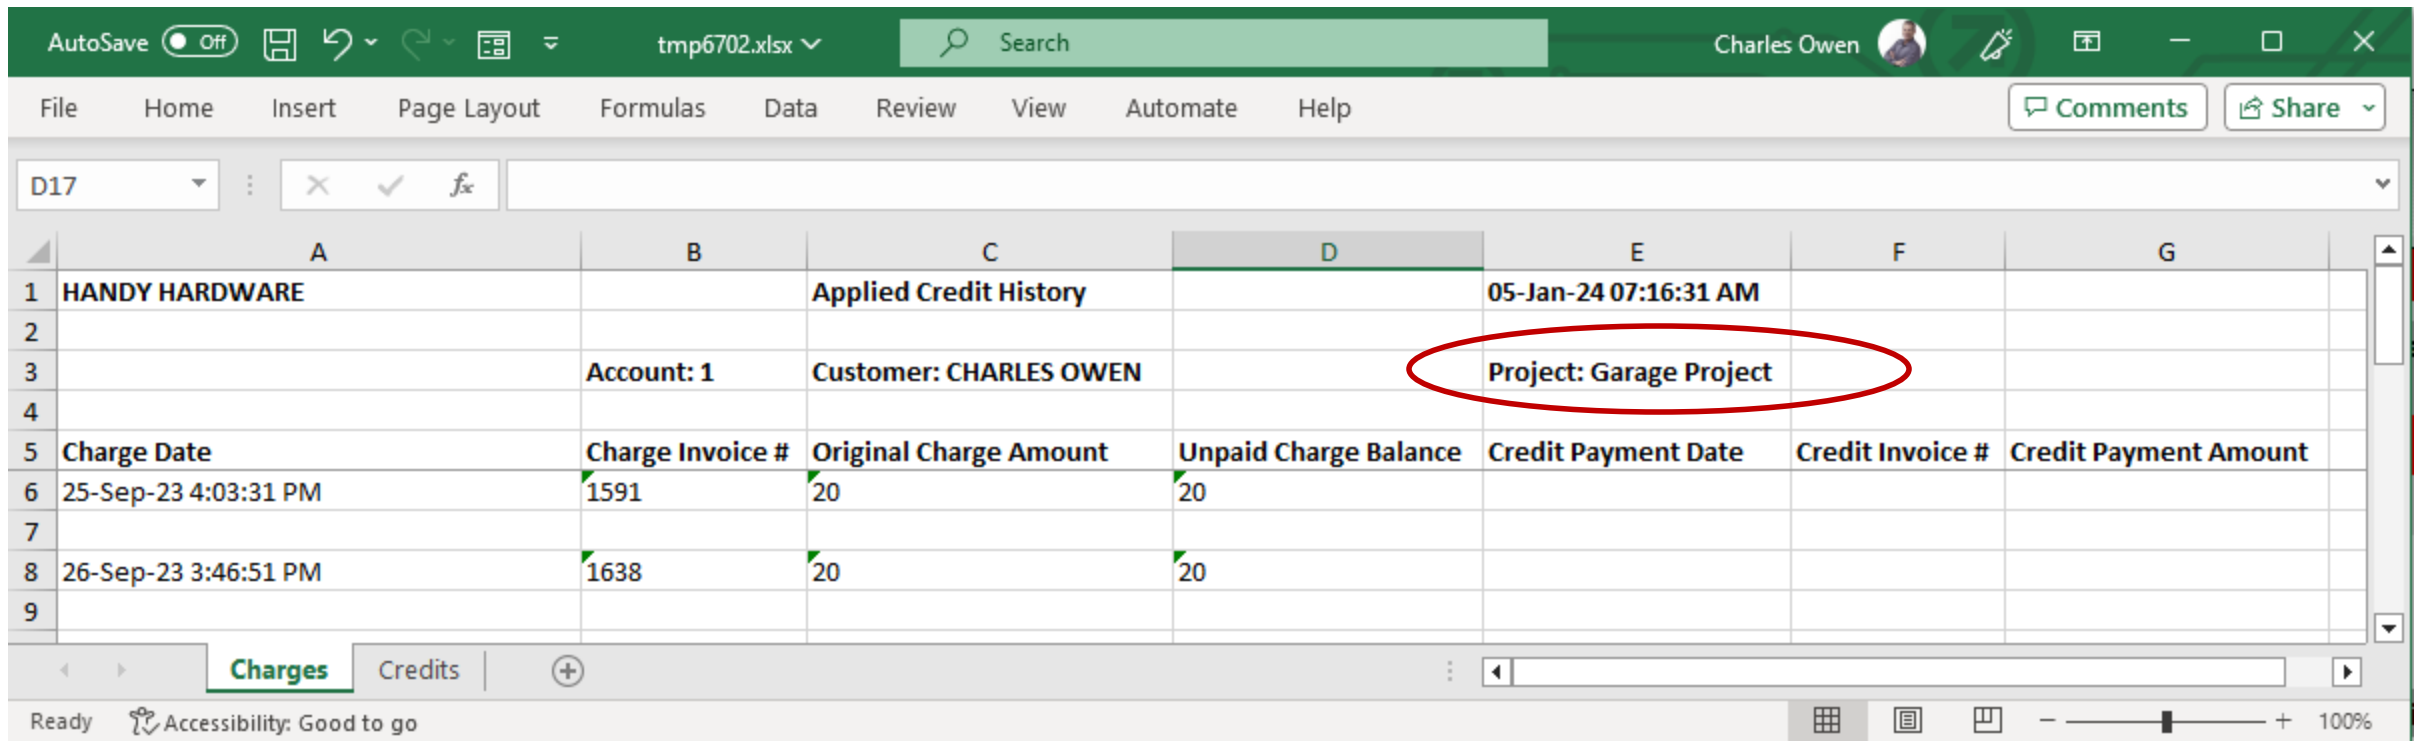

- Any store that sells to contractors – builders, electricians, plumbers, or painters – juggles orders and credits for different jobs/projects.
- Paladin’s payment management feature helps stores effectively apply payments to a customer’s various projects.
- In the **Customer Module** for charge accounts set to “**Open Item**”, select **Payment Management** and choose a project. This will show all invoices paid and unpaid for each project. Payments can easily be associated with the appropriate charge invoice.

Payment Management						Cancel	X		
Charge Invoices		No Project	All	Applied	Open	Credit Invoices		Show All	Show Open
Date	Invoice	paid	Payment		Date	Invoice #	Original	Unused	
25-Sep-23	1591	20.00	20.00		25-Sep-23	1590	(20.00)	(20.00)	
26-Sep-23	1638	20.00	20.00		25-Sep-23	1592	(20.00)	(20.00)	

Project payment management (cont'd)

- To see a list of applied credit history per project, under **Payment Management** select the Applied Payment History button.

The screenshot shows an Excel spreadsheet with the following data:

	A	B	C	D	E	F	G
1	HANDY HARDWARE		Applied Credit History		05-Jan-24 07:16:31 AM		
2							
3		Account: 1	Customer: CHARLES OWEN		Project: Garage Project		
4

Tax Holiday

The screenshot shows the 'Invoice / Quote' window with a 'Checkout' tab. A line item is selected, and a context menu is open. The 'Tax Holiday (Ctrl + T)' option is circled in red. The line item details are as follows:

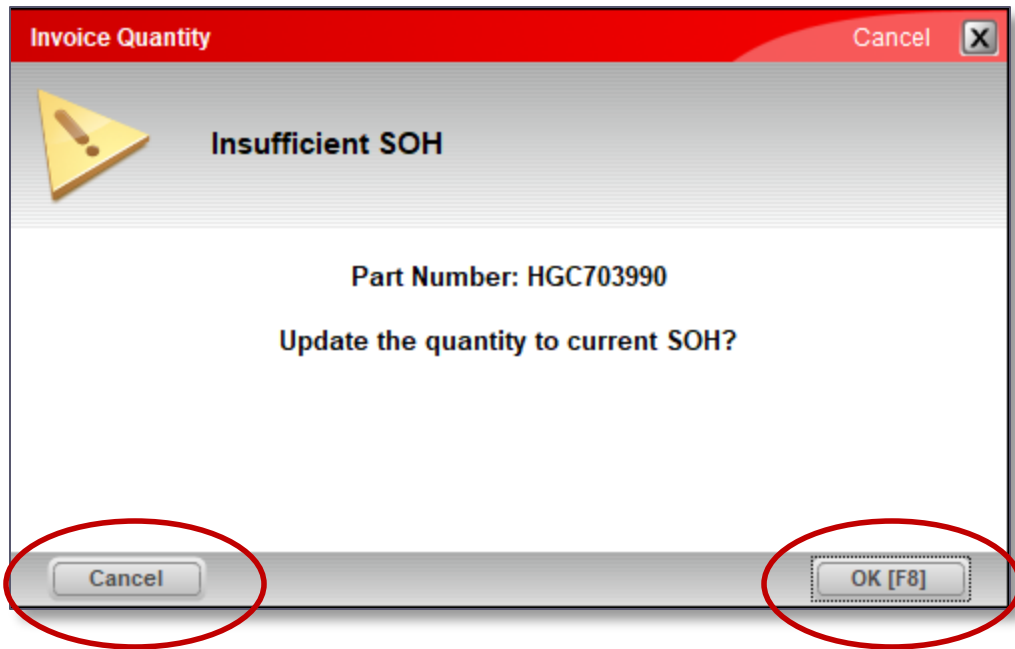

Tax	Def	Net	Part Number	Description	Quantity	Price	Extension
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	WF2.5GAL	NEW MILLENIUM WINTER FROST 2	EACH		0.70
1	0		WF2.5GAL	.5G 289.70			

The context menu includes the following options:

- Insert Line Item
- Delete Line Item (F3)
- Insert Note
- Add Precision
- Profit Analyst (Alt + A)
- Footage Calculator (Ctrl + K)
- Square Footage Calculator (Ctrl + S)
- Insert Subtotal
- Update to Current Price
- Update All to Current Prices
- Search Invoice / Quote (Ctrl + F)
- Add Serial #
- Find Next Serial # Warning
- Weigh Item
- Insert Dynamic Kit Group
- Pick Alt Dynamic Kit Item
- Tax Holiday (Ctrl + T)**
- Create a PO
- Copy (Ctrl + C)
- Paste (Ctrl + V)

- In the **Invoice/Quote** module, right click on the item and select **Tax Holiday** or press the **(Ctrl T)** key combination.
- Then enter the amount of the line item that will be sold without sales tax.
- Press “**Apply**” and complete the sale.
- The **Comparative Revenue Report** will itemize the Tax holiday amounts.

Newer “Invoice(Store)” options and settings (cont’d)

Oversold Warning

- In the **Invoice/Quote** module, if an amount is entered with a quantity lower than the amount available in the Inventory, an **Insufficient SOH** warning will appear.
- This warning can be suppressed by selecting the **Cancel** button or it may be accepted by pressing the **OK [F8]** button.
