WHAT YOU'LL LEARN

- How it works—Setup
- How it works—Process Rental Payments

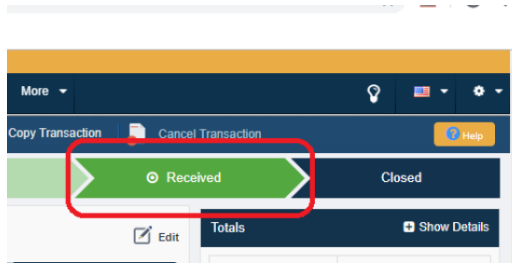

How it works—Setup

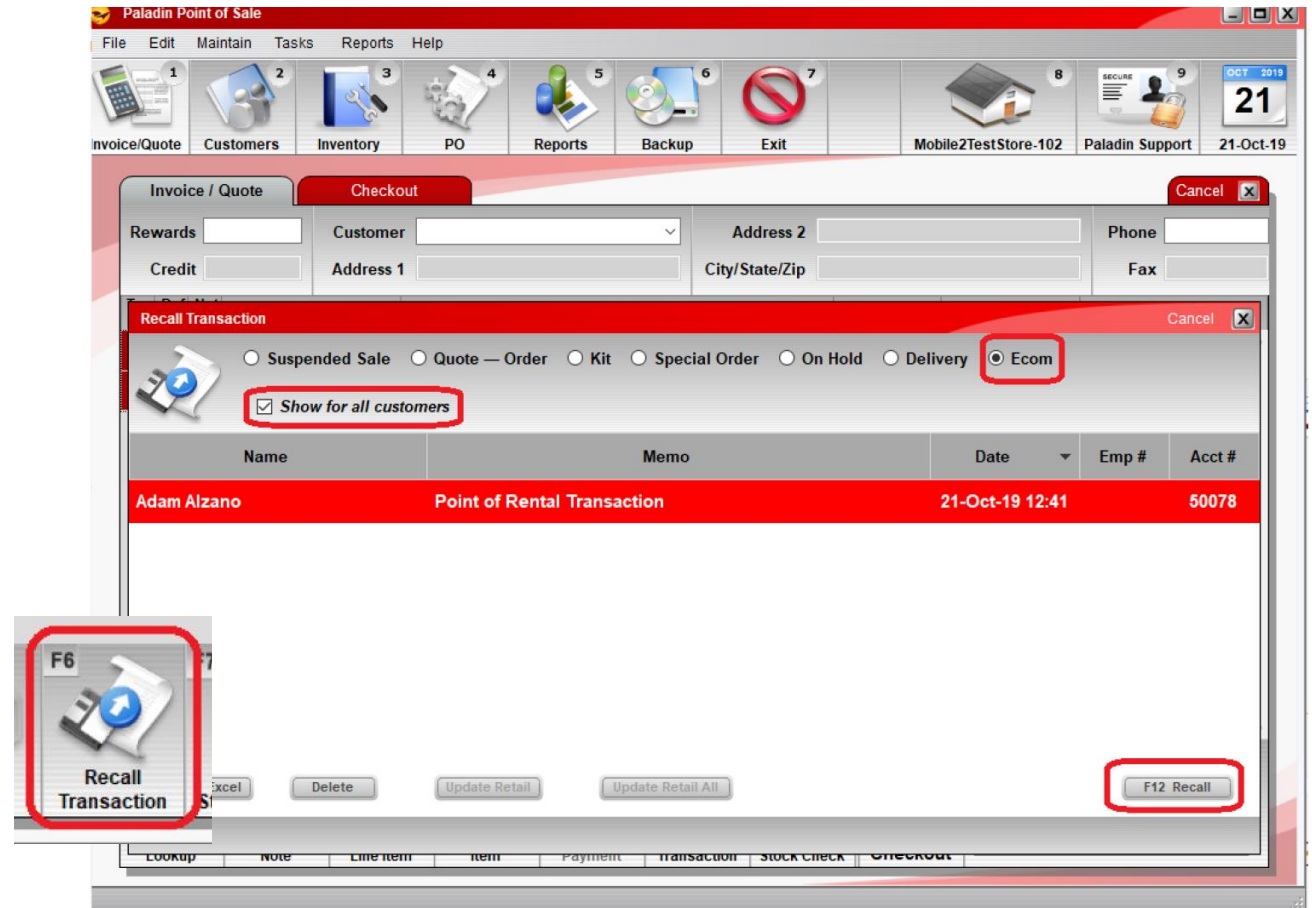

The screenshot displays a software interface with a red border. At the top, there are tabs for 'Inventory', 'Order Control', 'Pricing', and 'General'. The 'General' tab is active. The main window shows a form for 'RENTAL_TRANS' with a description 'POINT OF RENTAL TRANSACTION'. The 'Stock On Hand' is 0. A red arrow points to the 'Non-Inventory' checkbox in the 'Item Information' section, which is also highlighted with a red box. In the foreground, a red-bordered dialog box titled 'Add New Item' is open. It contains the following fields: Part #: RENTAL_TRANS, Alt Part #: (empty), Description: POINT OF RENTAL TRANSACTION, Cost: 0, Sell Price: 0, SOH: 0, and Department: 25 - RENTAL. A red asterisk indicates required fields. The dialog box has a 'F12 Add' button and a 'Cancel' button.

1. Sign up with Point of Rental.
2. Paladin Support sets up the integration which includes a custom non-inventory, non-taxable item that tracks rental payments.

How it works—Process Rental Payments

Once the rental is set to **Received** in Point of Rental, you can recall the transaction in Paladin in the **Invoice/Quote** module using F6 | **Recall Transaction**.

How it works—Process Rental Payments (cont'd)
