

Powerfully Simple Point of Sale

Ace Rewards and Paladin Point of Sale

Don't compromise your choice of a point of sale system to build customer loyalty.

Shouldn't your POS system and loyalty program work together? Now, they do. Paladin Point of Sale is the first independent software company to become certified with the award-winning Ace Rewards program. Offer quality benefits to your customers and give them a reason to keep returning to your store. All stores who wish to participate in this program must be Ace Hardware branded stores.

Value

Ace Rewards has been designed by an excellent company.

Ace stores have been labeled as "stores with exceptional customer service throughout their career," and have gained a reputation as the most helpful retailers in America. What better way is there to improve your store than by following the experts?

Don't underestimate the value of Ace Rewards. The Ace Rewards program strengthens customer loyalty and boosts your revenue by encouraging consumers to visit and spend more. Get ahead of your competitors.

What can I do with Ace Rewards?

Ace Rewards Instant Savings program shortens the time it takes to give customers their rebates. With this value added feature, time wasted with mail-in or online rebates vanishes! The program gives customers their rebate at the end of the checkout, allowing your customers to receive pricing specials right at the check stand. Time is money, as they say. Save money and time by shortening the process.

- Offer customers incentives to keep them returning to your store
- Manage rewards online
- Track customer purchases
- Fulfill rebates at the end of checkout
