

Lexmark for Paladin POS

Dependable performance

Day after day

Overview

Lexmark has been providing “businesses of all sizes in over 170 countries” with dependable, valuable products since their establishment in 1991¹. Paladin chose Lexmark for the company’s reliable technology and ability to provide exceptional products and dependable service world-wide. Paladin Data joined Lexmark when they were founded in 1991, allowing Paladin users to obtain printers ready for use with their Paladin system.

Features and Benefits

One-call service

Paladin’s relationship with Lexmark provides “first call” service. You receive timely support for your Paladin POS products whether it is hardware or software related.

Reliable technology

Lexmark provides modern printers that are known for their robust performance.

Ready-to-use hardware

When you order Lexmark products from Paladin, your printers work right out of the box. Paladin customer service will walk you through the final setup.

To view Paladin POS Lexmark printers, browse the store.

The Paladin Advantage:

- Available today
- Works smoothly with Paladin POS
- Affordable price

If you have questions about the Lexmark and Paladin POS integration, contact us at 1-800-725-2346 or email us at support@paladinpos.com. We look forward to hearing from you.
