

Star Micronics for Paladin POS

Dependable performance

Day after day

Overview

Star Micronics was established in 1950¹ and has been providing exceptional products world-wide for over sixty years. They specialize in products such as printers, audio components, visual card readers, and various pieces of hardware. Paladin chose Star Micronics for their dependable service and selection of receipt printers.

Paladin Data completed communication with Star Micronics in 1993, allowing Paladin users to choose from a selection of ready-to-use receipt printers.

Features and Benefits

One-call service

Paladin's relationship with Star Micronics provides "first call" service. You receive timely support for your Paladin POS products whether it is hardware or software related.

Reliable technology

Star Micronics provides modern receipt printers that are known for their robust performance.

Ready-to-use hardware

When you order Star Micronics products from Paladin, your receipt printers work right out of the box. Paladin customer service will walk you through the final setup.

To view Paladin POS receipt printers, browse the store.

The Paladin Advantage:

- Available today
- Works smoothly with Paladin POS
- Great value for an affordable price
