

## *SuiteRx IPS & Paladin POS*

### **Sophisticated workflow system**

Manage data and easily maintain regulatory compliances.

---

Maintaining compliancy standards and data management requirements can intensify the complexities of running an independent pharmacy. These time-consuming tasks can be simpler through integrated automation. SuiteRx IPS and Paladin POS take care of the technical aspects of pharmacy compliancy without all the hassle.

SuiteRx's mission is to provide a "fully integrated, intuitive and intelligent pharmacy business system<sup>1</sup>." SuiteRx IPS creates an excellent work environment while giving pharmacists power to handle complicated compliancy regulations.

### ***Value***

SuiteRx IPS was developed by pharmacists to "enable independent and chain pharmacies to use state of the art technology to fully meet the needs of their customers and increase the speed and accuracy in the pharmacy<sup>1</sup>." SuiteRx IPS software provides a quality product for pharmacists wanting to improve their efficiency and productivity.

Paladin proudly integrated with SuiteRx IPS in 2008. The integration of SuiteRx IPS with Paladin POS extended the capabilities of handling compliancy, accounting, and providing a better overall customer experience. The integration of Paladin POS and SuiteRx IPS features simplifies your pharmacy's operation.

### ***Features***

The Paladin and SuiteRx integration offers a bi-directional interface supporting the transfer of patient information, prescription numbers, and co-pay amounts. When the prescription label is scanned, the script number, cost, and signature requirements are immediately transferred to

Paladin POS.

SuiteRx IPS and Paladin POS integration gives pharmacists the ability to generate a “Filled vs. Picked Up” report, which is available at the push of a button.

Pharmacy compliancy is made simpler with SuiteRx IPS and Paladin POS. Signatures are captured in the Paladin POS system during checkout, and stored with the prescription in the IPS system for easy tracking.

Features include<sup>1</sup>:

- Easy Rx tracking and Rx recalls
- Simple proof of pickup
- Filled versus picked up reports
- Customer loyalty for OTCs and prescriptions

***The Paladin Advantage:***

- Single register checkout
- Maintain regulated compliancy at checkout
- Real-time integration with prescription labels, prices and signature capture
- Faster checkout improving your customer buying experience
